ANOTHER SUNNY AFTERNOON

Onyx 26/1 Combi

The wonderfully styled, titanium bronze Onyx comprises two models, as combi or as canopy with stand. The full range is available with various lamp varieties. The lamps in the canopy measure 1.90 metres in length and offer extra comfort because of the larger tanning surface. The ergonomically formed canopy creates a tunnel effect, which, together with the Strip Reflector System (SRS) behind the lamps, ensures optimum tanning results.

The bodycooler is a standard accessory in the Onyx. The cooler is continuously adjustable using the easily operated digital timer with conveniently arranged display.

The combi offers a conveniently high instep and ideal reclining comfort. The canopies with stand are also continuously adjustable and doubly tilting.

Not the least of the many advantages of the Onyx is its ease of installation.
